Over the Election of a Superintendent of the Infirmary—The Evil of Excessive Outdoor Poor Relief—The Finances, Etc.

The regular monthly meeting yesterday of the Board of County Commissioners, the first of the new Board since it succeeded in effecting an organization, was the occasion of another "dead lock." The Board convened at 10 a, m., and did not adjourn till after 5 p. m. The hitch was on the choice of a Superintendent of the County Imfirmary. There was a general understanding outside of the Board that the Democratic members were in honor bound to assist the Republicans in electing a man, and this longal road near Fullon. There was a
general understanding outside of the
Board that the Democratic members
were in honor bound to assist the Republicans in electing a man, and this
impression was shared by the Republicans in the Board, and by one or two of
the Democratic members, but the understanding was not acted upon, the Democrats, with two exceptions, scattering
their votes once or twice to Republican
applicants, but never voting with the
Republicans as a body.

There was a large number of candidates. Mr. McGregor put in nomination
Bernard Shanley, and James Creighton,
the present incumbent, was an applicant,
and received the solid Democratic support most of the time. The ether applicants were August Bauers, of Elm
Grove, J. S. Garvin, Taylor Foreman, J.
W. Gonter, John S. Creighton, B. Rickus,
Owen Sullivan and J. T. Maxwell,
On the first ballot James Creighton
received the five Democratic votes; Taylor Foreman 2, J. T. Maxwell,
Searvin 1 and August Bauers 1, of the
Republicans.

Seventeen ballots were taken without
result, and then a recess was taken.
After the recess James Creighton received flev votes and J. T. Maxwell five,

tion to return to work. It is evident that the strike is at an end, and the pickled iron machines, with one nailer in charge of ten machines, pursue the even tenor of their way.

The strike was born to die, so soon, the men say, because of the fact that the LaBelle put in the new system before the nailers joined the Amalgamated Association. The trouble is expected to come next June, when the scale ends, the men demanding an agreement protecting them from the innovation. There is no room for doubt that in the meantime all the other factories will introduce the tack factory system.

Gus Hill's World of Novelties.

Gus Hill's World of Novelties.

The New York Herald speaks of this great company as follows: A programme to please everybody, and everybody was there. When the curtain went up at the London Theatre, even the chairs, which had been placed in every available position, had long been occupied; and the crowd coming in found standing room only somewhat difficult to locate. The Company fairly bustled with originality, the whole show fitting as if built expressly for their various characters. It was certainly one of the best entertainments ever given at this establishment.

opposed to the passage of the bill by the als residence, corner of Chapline and Ohio Legislature prohibiting the employment of boys under the age of fourteen vears in the factories. Messrs. W. K. Elson, of the Elson glass works, Martin's Ferry; R. J. Beatty, of A. J. Beatty & Sons, of Steubenville; A. J. Smith, of the Nickel Plate Glass Company, of Fostoria, and James Dalzell, of Dalzell, Gilmore & Leighton Company, of Findlay, and other glass manufacturers and glass workers were at Columbus last week working against the passage of the bill. In this region and in many other towns fourteen-year-old boys, in fact boys of all ages, are scarce. This is especially true at Findlay, Fostoria, Tillin and other gas towns in Ohio and other States. When Dalzell Bros. & Glimore were at Wellsburg all sorts of inducements were held out to induce families with boys to locate there, and this is so of other towns. ducements were held out to induce families with boys to locate there, and this is so of other towns. In the larger cities is so of other towns. In the larger cities is there are scores of boys and the condition of affairs is different. Says a writer in the Pottery Journal: "Take two boys a gaed fourteen and ten years respectively, to a glass blower and ask him which in he wants, and he will take the ten-years old every time. They are generally brighter, more active and learn quicker.

"Glass blowers who commenced at the age of 8, 10 and 11 are, as a rule, the best workmen. A 10-year-old is also preferable in a nail factory to operate self-in feeders. For very heavy work the 14-year-old is the better. Many mothers are left widows with several boys, the coldest of whom is 12. Unless comfortably situated, she cannot send them to be shool, and they must go to work in the shoot, and they must go to work in the factories. If the bill passes, what is to become of her? She has too much as and her children to homes. The writer was left fatherless at the age of 6, and had to hustle, and knows how it goes, Recently Messrs. Exposition of the Maniy Art To-night.
According to the Pittsburgh Times of yesterday, Bart Shay, the light weight sparrer and puglist, who is at present making this city his beadquarters, is in demand by several of the would-be champions of Pittsburgh. The understanding is that efforts are being made to have Shay and Tommy Hogan, of Pittsburgh, meet either in a public sparring contest or a regular fight for a stated number of rounds. There is considerable Wheeling money ready to be placed on Shay, and in case a match should be arranged, the confidence felt in. Shay's ability by those who know him would probably result in still more money being put up. Pittsburgh sports are reported to be equally confident of Hogan's prowess.

WHAT IS SCROFULA

It is that impurity in the blood, which, ac-cumulating in the glands of the neck, pro-duces unsightly lumps or swellings; which causes painful running sores on the arms, legs, or feet; which developes uicers in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of pimples, can-crous growths, or the many other manifestafastening upon the lungs, causes consumption and death. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

WASHINGTON'S BIRTHDAY.

The Preparations for Ita Celebration by the Jr. O. U. A. M., Here. As the anniversary of the birth of the Father of his Country, the illustrious Washington, again draws near, it is evident from the preparations that the members in this city of the Junior Or-

dor of United American Mechanics are making for observing the day in a benitting manner, that the celebration here on the 22nd instant, will be one creditable alike to the order and the city.

It is estimated that about eight hundred men will be in line to take part in the parade set for the afternoon of that day. Joseph L. Degant has been chosen to act as chief marshal of the parade and John Smith of the O. U.A. M., or Senior Mechanics as the order is called, and Henry C. Luhnan of the Patriotic Order Sons of America, will be assistants to the chief marshal. Mayer's band has been engaged to head the procession and the Black Eagle drum corps will probably be secured to mark out the time for the Wheeling Light Guards. The parade will form in Centre Market square at 2:30 o'clock, the right resting on Twenty-third street and the route as now planned will be as follows: Down Twenty-third street to Main, to Twenty-fourth, to Chapline, to Twenty-third street to Main, to Twenty-fourth, to Chapline, to Twenty-third street to Main, to Twenty-fourth, to Chapline, to Twenty-third street to Main, to Twenty-fourth, to Chapline, to Twenty-third street to Main, to Twenty-fourth, to Chapline, to Twenty-third street form Steuben-ville, Bellaire, New Cumberland, Marin's Ferry and a number of other points. In the evening there will be a ball given at the Arion Hall, at which a special feature will be an exhibition drill by the Light Guards. The company has been busily engaged drilling for some time past, and are getting the manual down very fine.

The day is a legal holiday and the Juniors are in hopes that Mayor Seabright will issue a proclamation calling on citizens to at least observe the day by closing their places of business in the afternoon. Those who are arranging for the celebration also request that the people make it a point to throw the stars and stripes to the breeze in some form and be patriotic for at least one day in the year.

support, Mr. J. R. Rutledge as Jenks is a comedian and character actor of a good deal of ability, and he justly shared the honors of the evening, his song, "I Haven't For a Long Time Now," being repeatedly encored. Mr. Sanford sang a bass solo in a voice which is notoften excelled on a Wheeling stage, and his acting of the villiau was good. Mr. McDonough also gives a taking solo, and takes the role of Smudge with ability. Miss Ida Lillian Abrams has a most charming voice, of brilliant quality and good range, under brilliant quality and good range, under perfect cultivation, and she received a deserved ovation. Miss Annie Erwin also makes an acceptable addition to the performance, and sings a solo. The rest of the company is satisfactory.

The piece will be repeated this evening, doubtless to a crowded house.

"The Stownway."

This picture shows two laundresses, one at work the other not able to because her hands are cracked and sore—she has been using soap containing too much alkali. Read Prof. Leeds's report.

Gentlemen:-The sample of "Ivory" Soap which you sent to me for analysis has been received, and you will find analysis herewith. As a result, the "Ivory" Soap while strongly cleansing, leaves the skin soft and pleasant to the touch instead of harsh, uncomfortable and liable to chap, as results from the use of many common laundry soaps, in which the ratio of uncombined to combined alkali is large. The percentage of uncombined fat in the "Ivory" is very small hence the lather is clean, white and abundant, with entire absence

of oil or grease. There are no injurious substances. The above considerations show the "Ivory" to be a pure soan

and excellent for laundry use. Very Respectfully Yours,

ALBERT R. LEEDS, Ph.D. LABORATORY OF CHEMISTRY, STEVENS INSTITUTE OF TECHNOLOGY, HOBOKEN, N. J. PROPESSOR OF CHEMISTRY

A WORD OF WARNING. There are many white soaps, each represented to be "just as good as the livery'; they ARE NOT, but like all counterfeits, lack the peculiar and remarkable qualities the genuine. Ask for "Ivory" Soap and insist upon getting it.

> "On the Frontier." Hardie and Von Leer and a fine sup porting company will appear at the Opera House on Friday and Saturday Opera House on Friday and Saturday evenings, February 8 and 9, also giving a matinee Saturday, presenting the grand melo-dramatic spectacle, "On the Frontier." There are filty people in the production, including a genuine Indian brass band, a drum corps, etc. The secency is entirely new. Incidental to the play several brilliant specialties will be introduced, "On the Frontier" is not a blood and thunder play, but an intelligent dramatization of Fonimore not a blood and thuston of Fenimore telligent dramatization of Fenimore Cooper's famous novels, "Last of the Cooper's and "Wept of Wishton-Mohicans" and; "Wept of Wishton-Wish." There is but one shot fred until the finale of the play, and "On the Frontier" is to-day what Mayo's "Davy Crockett" has been in the past.

Points About the River.

This melodrama, to be seen at the Opera House Thursday evening, is regarded thus far in advance with unusual interest. "The Stowaway" company will not contain any alleged society queens," said Manager Davis the other day. "The encroachment of cheap amateurs upon the ranks of experienced actresses is already assuming formidable proportions. Why, when I tell you that I have received applications from several different females, who offered to join my company without remuneration, you can readily realize low far the thing has gone. The 'Stowaway' cast possesses the distinction of being purely English in its female members. They number four—Helen Weathersby, Marion Elmore, Leonora Bradley and Marie Harriott. All, however, with the exception of the latter—a younger member of the Weathersby family, who recently came from London—lave resided in this country for years, and have appeared in none but our best traveling organizations."

The sale of seats commences at House's music store this morning.
